## Formation Bonuses and Special Pilot Abilities

**Bonus:** *Command Lance* - Prior to the beginning of play, half of the units in this formation (round up) receive one of the following Special Pilot Abilities for free (each unit may receive a different SPA): Antagonizer, Blood Stalker, Combat Intuition, Eagle's Eyes, Marksman, or Multi-Tasker (see pp. 92, 93, 93, 95, 97 and 98, respectively). In addition to this, the commander's unit receives the Tactical Genius SPA (see p. 100). If the Special Pilot Abilities rules are in full effect and the commander already has the Tactical Genius SPA, this ability adds a +1 modifier to the force's Initiative roll results instead (including any rerolls made as a result of the Tactical Genius SPA).

**Bonus:** *Striker/Cavalry Lance* - 75 percent of the units in a standard Striker/ Cavalry Lance receive the Speed Demon Special Pilot Ability (see p. 99).

**Bonus:** *Battle Lance* - The Battle Lance formation receives the equivalent of a Lucky Special Pilot Ability (see p. 97) as a level of the number of units in the formation at Setup plus two. So a Lance of 4 'Mechs in a Battle Lance receives a 6-point Lucky Special Ability. It is useable by any unit in the Battle Lance, rather than limited to any single unit. This bonus ability may be stacked with a Lucky SPA assigned to one or more of the Battle Lance's member units. But if this is done, the maximum number of rerolls a Battle Lance unit may attempt for the duration of the scenario— between both the pilot's ability and that provided by this formation bonus—is 4.

**Bonus:** *Medium Battle Lance* - The Battle Lance formation receives the equivalent of a Lucky Special Pilot Ability (see p. 97) as a level of the number of units in the formation at Setup plus two. So a Lance of 4 'Mechs in a Battle Lance receives a 6-point Lucky Special Ability. It is useable by any unit in the Battle Lance, rather than limited to any single unit. This bonus ability may be stacked with a Lucky SPA assigned to one or more of the Battle Lance's member units. But if this is done, the maximum number of rerolls a Battle Lance unit may attempt for the duration of the scenario— between both the pilot's ability and that provided by this formation bonus—is 4.

**Bonus:** *Medium Battle Lance* - The Battle Lance formation receives the equivalent of a Lucky Special Pilot Ability (see p. 97) as a level of the number of units in the formation at Setup plus two. So a Lance of 4 'Mechs in a Battle Lance receives a 6-point Lucky Special Ability. It is useable by any unit in the Battle Lance, rather than limited to any single unit. This bonus ability may be stacked with a Lucky SPA assigned to one or more of the Battle Lance's member units. But if this is done, the maximum number of rerolls a Battle Lance unit may attempt for the duration of the scenario— between both the pilot's ability and that provided by this formation bonus—is 4.

**Bonus:** *Heavy Battle Lance* - The Battle Lance formation receives the equivalent of a Lucky Special Pilot Ability (see p. 97) as a level of the number of units in the formation at Setup plus two. So a Lance of 4 'Mechs in a Battle Lance receives a 6-point Lucky Special Ability. It is useable by any unit in the Battle Lance, rather than limited to any single unit. This bonus ability may be stacked with a Lucky SPA assigned to one or more of the Battle Lance's member units. But if this is done, the maximum number of rerolls a Battle Lance unit may attempt for the duration of the scenario— between both the pilot's ability and that provided by this formation bonus—is 4.

**Bonus:** *Fire Support Lance* - At the beginning of each turn, up to half the Fire Support Lance units (rounded down) may receive the Oblique Attacker Special Pilot Ability (see p. 98), which will affect their weapon attacks during that turn. Destroyed or withdrawn units do not count towards the current number of units in the formation.

**Bonus:** *Recon Lance* - At the beginning of play, the Recon Lance's controlling player must choose either the Eagle's Eyes, Forward Observer, or Maneuvering Ace SPAs (see pp. 95, 96, and 97, respectively). Every unit in this Recon Lance receives the chosen SPA. Note that the abilities chosen at the scenario's start cannot be exchanged for a different ability during the course of the same scenario.

**Bonus:** *Pursuit Lance* - 75 percent of the units in this formation (round normally) receive the Blood Stalker Special Pilot Ability (see p. 93). The Pursuit Lance may choose an enemy Formation rather than a single unit as the target for the Blood Stalker SPA. If this option is used, all members of the Pursuit Lance must choose the same enemy Formation for the Blood Stalker SPA granted by this ability, and the destruction of the chosen Formation is the only time the Pursuit Lance may change the target of the Blood Stalker SPA, by choosing a new enemy Formation.
